

Meet LEX

Your Genius Inventory Assistant

Imagine a future where every dealership is powered by an always-on, intelligent assistant.

Lex is not just a tool, it's the heartbeat of your dealership, seamlessly integrated into your day-to-day operations. Powered by cutting-edge generative AI, Lex is always accessible, ready to provide instant answers, run analyses, guide your decisions, and execute them with precision.

Confidence in Every Decision

Lex transforms complexity into clarity, eliminating blind spots and providing you with actionable intelligence and confidence at every turn.

See Beyond Today

Lex proactively surfaces critical, data-driven insights on the questions you didn't even know to ask, so you're always steps ahead.

Versatile Support

From launching marketing campaigns and repricing vehicles to uncovering deep data insights, Lex is there to make every task easier.
